

Can you sponsor a life-saving toilet to be built in Madagascar?

Diarrhoea kills four thousand children a year in Madagascar!

Money for Madagascar is helping isolated schools who struggle against the odds to give children the chance to learn. But most schools in Madagascar have no water or toilets. If you can help us build new hygienic facilities for the children then we can push back against sickness and child mortality.... Creating safe places where children can thrive.

Could you help pay for a single toilet? Or perhaps you can join with friends or colleagues to 'Pair a Privy' in a public space you use, such as at work, at school, at a place of worship, or at a village hall or sports club?

You can donate via our website or send a cheque payable to 'Money for Madagascar' to: MfM, Langthwaite House, Lancaster LA2 9EB, UK. Please get in touch if you need more information. Thank you for your help! Please tell us if you would like a CERTIFICATE with the details of the toilet you have sponsored.

**£80 provides a
Toilet Cubicle**

+

**A Tippy Tap for
handwashing**

+

Hygiene Education

£250 provides a Toilet Block

+ A row of Taps
